Powderly Condemns the Actions of the Anarchists.

The Senate Committee's Report on the Broadway Railroad Job—Interesting General News.

Powderly Condemns the Action of Anarchists.
SCRANTON, Pa., May 5.—General Master Workman Powderly vigorously denounces the Chicago anarchists and their desperate work. In the course of an interview this evening he said: "Serious bloodshed and disorder which had occurred in Chicago are disgraceful and unbecoming for, and deserving of the severest condemnation and punishment. Honest labor is not to be found in the ranks of those who march under the red flag of anarchy, which is the emblem of blood and destruction." He added, "that it is the duty of every organization of workingmen in America to condemn the outrages committed in Chicago in the name of labor. None of the anarchist leaders are Knights of Labor, and if any of the Knights have taken part in the murderous proceedings reported, they should be expelled from the order. Our organization has no antagonism with necessary capital and it is the duty of every knight of labor to support the laws made to harmonize the interests of capital and labor. There is not a trades union in America that will countenance wrong or uphold these men in Chicago who have been engaged in the destruction of life and property. The aim of trades unions is to uphold and dignify labor, while anarchists try to tear it down and degrade it. The anarchist's idea is un-American, and it has no business in this country."

The Broadway Railroad Jobbing.
ALBANY, May 6.—The senate committee on railroads made its report on the result of its investigation of the Broadway Surface railroad company's doings. It recommends in strongest language the illegality in organization of the company, its utter disregard of the law in its subsequent proceedings; its wholesale bribery of aldermen and the flagrant violation of the law practiced by the councilmen in consenting to its laying tracks in lower Broadway. It speaks of the remedial laws which have been passed since the investigation began as likely to have a salutary effect, and of legal proceeding initiated against bribe taking aldermen. It speaks strongly of the dangers which threaten the state from the spirit of wholesale corruption which now exists in official places. Accompanying it was a communication from the district attorney of New York City saying he had some important testimony to present, going to show how bribe money was distributed and asking that the time be extended. A resolution to have the Third Avenue road investigated was referred to the committee to report on its advisability.

TO IMPROVE THE ERIE CANAL.
In the assembly after a long political debate an appropriation of \$300,000 to improve the Erie Canal was passed.

Reorganization of the Denver & Rio Grande.
DENVER, May 5.—At the instance of the first mortgage bondholders of the Denver & Rio Grande railway, Judge Hallett, in the United States circuit court today entered a final decree for the foreclosure and sale of that road on July 12. This finally settles all litigation and insures immediate reorganization under the Cappell plan. The new securities will be issued as soon as the sale is confirmed by the court, when the road will pass into the hands of the new organization.

Confirmations and Rejections.
WASHINGTON, May 5.—The senate in executive session today cleared its calendar of nominations. The only confirmation made public is that of C. M. Zuker, to be governor of Arizona. The nomination of R. S. Dement, to be surveyor general of Utah was adversely reported from the public lands committee, and was recommended. The rejection of Charles B. Howard, to be associate justice of the supreme court of Montana, is officially announced.

More Births Than Deaths.
WASHINGTON, D. C., May 5.—The report of Dr. Billings, surgeon United States army, on the mortality and vital statistics of the United States as returned for the tenth census shows that the total population in 1880 was 50,155,788, an increase in ten years of 11,697,412. Of this 281,219 per annum has been taken as due to immigration, the total number of immigrants for the ten years being 2,812,191. This makes the mean annual increase due to excess of births over deaths 878,522.

Killed By a Burglar.
ENGLEWOOD, N. J., May 6.—Geo. Coe, nephew of the president of the American Exchange bank in New York, was shot and fatally wounded by a burglar last night. George Coe, his brother Louis, and a young man named Brinkerhoff, were passing by the school house about 10 o'clock last night and saw a light in the building. This being unusual they proceeded to investigate the matter, and discovered a burglar in the act of ransacking the desks. They attempted to capture him but the thief turned as the young men entered the room and fired upon them. The bullet from his revolver entered Geo. Coe's left shoulder. Before the wounded man fell a second ball made a terrible wound in his abdomen. Louis Coe, after a terrible struggle, succeeded in disarming the burglar, and beat him to insensibility with a jimmy. Brinkerhoff and Louis Coe then tied his hands and feet together and locked him up in a room. They then turned their attention to George, who was found to be unconscious and almost dead. They removed him to his house and gave the alarm, but before help came the burglar made his escape.

THE MILITIA AND THE MOB.

The Guns of the Soldiers Scatter Death Among the Turbulent Flocks.

MILWAUKEE, May 5.—Residents in the southern portion of the city, who were basing early this morning, noticed the movement of a great number of Polacks who had participated in yesterday's riot at Bay View, sagely and in pairs, making their way towards the large Polish church in that section of the city. By 6:30 o'clock no less than 400 men had assembled, each bearing a huge club or iron bar, or some other implement of warfare. The men formed in line and at the order of "forward march" proceeded in the direction of Bay View, raising the cry as they went, "Kill the militia and burn the mills." Being apprised of the mob's coming, Major Trimmer ordered four companies under his command from inside the rolling mills' enclosure, where they had been in camp during the night, and stationed them in the best position to check the advancing mob. As the latter approached they were ordered to stop. No heed was given. Major Trimmer repeated the order and gave all fair warning that to advance meant certain death. Again the crowd, which was now about 1,500 feet distant, ignored the caution and pressed forward the bridge. Major Trimmer had orders to keep any crowd from approaching the mills any to fire upon them, as the last resort of the order could not otherwise be enforced. Accordingly when no attention had been given to the second warning he gave orders to fire, and as nearly as could be learned six companies emptied their guns with steady aim into the throng. Seeing several of their number FALL WOUNDED OR KILLED, the mob threw themselves flat on the ground and sought the shelter of the railroad embankment. The level of south Bay street and Lincoln avenue being higher than the marsh, was also sought by the frantic men, who tumbled headlong into the water. There was every evidence on the surrounding objects to clearly show that the militia had fired low and with intent to kill, as one of them expressed it.

The result of the first volley having had such salutary effect the militia companies again stacked their arms, and portions of the routed mob returned to the scene of the tragedy. A squad of police also put in an appearance and began to assist the wounded. Several of the latter were taken to neighboring saloons and dined with whisky, after which they were conveyed to their homes.

THE RESULT.
The killed and wounded is as given below:
Michael Ruchalski, laborer, aged 40 years, was shot in the breast and died shortly afterward; Franz Kennel, aged 30 years, who lived in a little shanty on south Bay street, was shot through the heart while feeding chickens in his own yard. He was a laborer but had not been working for four years owing to rheumatism. He leaves a wife and five children.

The Citizens of Chicago on Anarchism.
CHICAGO, May 5.—The indignation and concern of the general public respecting the atrocious occurrence of last night, has been in no wise lessened. The prompt action of the authorities in arresting three of the chief conspirators and accumulating evidence which it is believed will fix the great crime upon them, has called forth unstinted praise. All ordinary places of business are open but there is almost an entire cessation of all ordinary transactions. Business men are discussing the event in all its serious aspects. The mayor has been assured by all classes of citizens of their desire to aid him in every possible way. Hon. E. B. Washburn, remarked today that he had not known a time during the carnage enacted by the commune in Paris when so utterly a COWARDLY AND ATROCIOUS MURDER as that of last night. If there is any law to reach the perpetrators and instigators of the affair it is now positive that certain death awaits them. Mayor Harrison this afternoon, after consulting with his department officers, published the following proclamation:

"To the people of Chicago:
Whereas, great excitement exists among the people of this city growing out of the labor troubles which excitement is intensified by open defiance of the guardians of the peace by a body of lawless men, under the pretence of aiding laboring men but really endeavoring to destroy all law; and, whereas, last night these men by the use of weapons never resorted to in civilized lands except in times of war or for revolutionary purposes, causing bloodshed among the citizens and officers of this municipality, who were simply in performance of their duty; and, whereas, the city authorities propose to protect life and property at all hazards, and in doing so will be compelled to break up all unlawful or dangerous gatherings; and, whereas, even when men propose to meet for lawful purposes but men will attempt to mingle with them armed with cowardly missiles for the purpose of bringing about bloodshed, thus endangering the lives of innocent persons; therefore, I, Carter H. Harrison, mayor of the city of Chicago, do hereby proclaim that all gatherings of people in crowds or processions on the streets and public places of the city are dangerous and cannot be permitted, orders have been issued to prevent all such gatherings and to break up and disperse all crowds, to prevent injury to innocent persons. I urge all law abiding people to quietly attend to their own affairs and not meet in crowds. If the police order any gatherings to disperse and they be not obeyed all persons so disobeying will be treated as law breakers and will surely incur the full penalty of their disobedience. I further assure the good people of Chicago that I believe the police can protect their lives and property, and the good men of Chicago will do so."
CARTER H. HARRISON, Mayor.

MONEY FOR ANARCHISTS' VICTIMS.
CHICAGO, May 5.—The fund raised for the policemen wounded by last night's bomb throwing amounts tonight to \$27,000. Of this amount \$12,000 was contributed by members of the board of trade, \$10,750 by railroads centering in Chicago, and the balance by private individuals. The wholesale grocers are also raising a large fund to be turned over tomorrow, and so far none of them have contributed less than \$100 each.

ALL QUIET IN MILWAUKEE.
MILWAUKEE, May 6.—All quiet in this city this morning. Troops continue to guard threatened establishments at Bay View and on the south side. No riotous assemblage has been reported this morning. The trouble is believed to be

over. There is a greater feeling of confidence apparent in the ability of the authorities to preserve peace, though the outlook continues threatening in certain quarters and the police may be called upon to disperse gatherings in some portions of the city. The arrest of a few anarchists yesterday insured a feeling that this element is no longer to prove so troublesome. The police now believe that all the leading instigators of the recent trouble have been caged, with possibly a few exceptions. The collecting of evidence against the conspirators is proceeding rapidly.

THE STRIKE AT CHEYENNE.
CHEYENNE, Wyo., May 5.—The situation regarding the strike of brakemen is the same as during the last forty-eight hours. No freight is moving between North Platte and Rawlins, thus effectively blocking the main line of the Union Pacific railroad. There is no interference with passenger trains, excepting at Eagle Rock, on the Oregon Short Line, where the strikers held the passenger train all last night.

THE STRIKERS WIN.
CINCINNATI, May 6.—The strike of freight handlers is at end. Men are already at work in all freight yards and others will resume this afternoon. Exact terms are not made known but it is generally understood that the men have secured an advance from 15 to 25 cents per day.
